ABOUT US

W L West & Sons Ltd have been based in West Sussex since 1865, but Census records indicate that the Great Grandfather of the current family go back further than that in the timber industry, probably to Horatio Nelson's time! So we truly have great experience in timber.

We pride ourselves in working with our customers in helping with their timber requirements and creating lasting trading partnerships.

Mainly working with hardwoods and specialist softwoods, we are able to supply timber as a raw product, machine profiles to new designs or to match for restoration work.

"Good timber does not grow with ease; the stronger the wind, the stronger the trees."

-J. Willard Marriott

MACHINED PROFILES

We are able to machine a wide range of profiles for a variety of end uses. Flooring, Skirtings, Scotia, Dado rails, Door and door frame components, machine timbers for Conservatories to name but a few. The profiles shown below are for example only and do not provide an exhaustive list (not to scale), with well over 200 different profiles available, we are sure that we will be able to meet your requirement.

WORKTOPS

Prices will alter with the size of the run, the larger the run the lower the price. Please ask the sales team for details. All of our tooling is made in-house. We offer a fast planing service and benefit from a new auto crosscut saw and multirip for linear cutting.

CNC MACHINING

Moulding is a staple for us. With a modern 5 Axis CNC enabling machining of complex shapes and a 7 headed linear moulder, we can tackle most projects presented to us. From curves to ovals to key holes, have a chat with our team, we're sure that we can help.

To augment the machining facilities, we can also press veneers using our heated press and adhere solid lippings to chipboard door cores.

- ✓ Fire door manufacture – with over sized doors availability
- ✓ Edge banding facility for panels and door cores
- ✓ Heated press for veneer and carding cores

TIMBER CLADDING

Timber Cladding is a traditional way of finishing the external profiles of a building, and has come back into popular use in recent years. It gives a warm and pleasing finish to the outside (or inside) of any building. Left to weather silvery grey or treated to maintain its colour, either way it is pleasing to the eye.

- ✓ Fresh Sawn Oak
- ✓ Home Grown Larch
- ✓ Cedar
- ✓ Douglas Fir Feather Edge
- ✓ Durawood (Ayoux/Thermos-Treated)
- ✓ Composite Materials

- ✓ Waney Edged Cladding
- ✓ TG&V Cladding
- ✓ Horizontal Cladding
- ✓ Fire-Retardant Cladding

TIMBER BEAMS & CONSTRUCTIONAL TIMBER

Sawn from European Oak logs, we can offer beam components (equivalent to the Grade BS5756 1996), cut in-house for a fast turnaround. Brace cutting is available as is Jowel post cutting. For larger order quantities we can offer a direct delivery from our suppliers in France. We have our own visual stress grader trained to grade to BS5756. Home Grown Douglas Fir is available for certain applications. For restoration work, we do stock some steady air drying beams for scarfing in repairs. These can be varying sizes, so it is always advisable to call to check availability. We can normally locate your required sizes if we do not have them on stock.

- | | |
|--|---|

PRO Fencing is our fence installation division at W.L. West & Sons Ltd

Fencing installation and gate manufacture have been at the core of W.L. West & Sons Ltd. business for nearly a century and a half. Types and styles have changed over that period and where fences and gates were almost exclusively timber, we now see a variety of materials being used in fencing and gates. Please contact us for a quote for your property.

01252 726391

CONTACT PRO FENCING

✓ Site Hoarding

✓ Traditional Timber Fencing

✓ Security Steel & Wire Fences

✓ Panel & Close Boarded Fences

PLEASE NOTE: WE ARE ALSO ABLE TO OFFER SUPPLY-ONLY ON ALL OF OUR RANGE OF FENCES AND GATES.

We can supply only or supply and fix most types of gates – from steel security to timber field gates.

Oak field gates and specialty hardwood gates are manufactured in our joinery workshops. Softwood gates are sourced from suppliers that we have found to supply a quality product. We are able to engrave the gate with your property name, but please tell us when you order, as it is engraved prior to assembly. We are unable to engrave after assembly, but we can make a sign to fix to the gate. We can also advise who to contact for gate automation.

CONTACT PRO FENCING

ENGRAVED SIGNS

We are able to supply engraved (and painted if required) signs for any application, house signs, footpath signs, memorial benches, gate backs and many more applications. Using our in-house CNC machine, we're able to manufacture products with lettering, numbers and logos. Posts and gate backs can also be engraved in this way.

✓ Lettering, Numbers & Logos

✓ Engraving on Already Constructed Gates/Signs

✓ Your Choice of Timber

✓ Paint Optional

WORKTOPS & BARTOPS

All of our wooden worktops are bespoke, handmade and finished. Every one is made to order at our workshop in West Sussex. We craft and manufacture your order to your templates and requirements.

For Kitchens, Workshops, Laboratories, Bar and Counter tops, we manufacture solid hardwood handmade worktops from 25mm to 63mm thicknesses, laminated from 70mm and wider equal width staves with a discreet jointing system. We use a cold set adhesive system using correct adhesives such as polyurethane types for the best results.

✓ Supplied with upstands, quadrants, scotias etc. to match

✓ Your choice of timber

✓ We also offer laminated solid worktops

✓ Bespoke, handmade and finished

SHINGLES & SHAKES

W L West & Sons Ltd are the sole UK distributor for Rapold GmbH handmade shake products. We supply a number of timber products, including sarking boards, architectural shingles, Western Red Cedar shingles, Larch, Robinia and Oak shakes.

Shingles and Shakes (Shingles are sawn, Shakes are cleft) must be one of the most environmentally friendly and sustainable ways to roof or clad your property.

Good straight grained trees are selected, cut to length and hand cleft into a number of set lengths. Shakes can be used on walls and other vertical elevations.

In addition, they make a wonderful textured focal point for internal walls.

✓ Can be used internally or externally

✓ Environmentally friendly

✓ Handmade in Bavaria

✓ WL West & Sons are the sole distributor

BESPOKE TABLES

Manufactured in our Selham workshop, we have designed and developed some unique tables.

Constructed of hardwoods, the tables have been designed for either Dining Room or Boardrooms in mind. Often with live (waney) edges book matched to give an amazing, unique style. Another option is to combine the beauty of timber with the contemporary feel of modern resins.

These products are unique, each one will be different in some way, so you will be investing in a future heirloom.

Potential future heirloom to pass on in your family

Made in Sussex, UK

Each table is completely unique

Engrave with your family crest, family name or logo

We are very happy to discuss your ideas to create a table unique to you. Have your family crest or company logo incorporated. The ideas are endless.

[LEARN MORE ABOUT OUR BESPOKE TABLES](#)

GARDEN FURNITURE

Our garden furniture is handmade by our own craftsmen, and manufactured mainly out of European Oak – but we can select other suitable species.

These are not massed produced products, with small numbers of benches and chairs being made at any one time, truly 'Handmade in West Sussex'. Designs may alter slightly between builds, making your bench completely unique.

- ✓ Small batch and handmade in Sussex, UK
- ✓ Engraving options available – i.e. back of chair/bench
- ✓ European Oak or other species of your choice
- ✓ Made to your size requirements

[LEARN MORE ABOUT OUR FURNITURE](#)

ENVIRONMENT

Looking after our timber supply and thus our environment is key to ensuring our industry’s future. Making the very best of the timber we use is also an important part of what we do. We have taken a number of actions over the past 20 years, which include the following below.

Supply

- ✓ Grown in Britain Chain of Custody - GiB-FP-SA-5061
- ✓ FSC Chain of Custody - SA-COC-005781
- ✓ PEFC Chain of Custody - SA-PEFC/COC-005781
- ✓ Timber Development UK – Responsible Purchasing Policy

Demand

- ✓ Accurate selection of timber to minimise waste
- ✓ Slabwood and offcuts recycled for biomass
- ✓ Wood shavings and dust recycled for animal bedding
- ✓ 80 KWH Photovoltaic power generation system
- ✓ Card, Paper and plastics recycled
